Antenna Adapter: • 40-EU55

Table of Contents

Dash Disassembly	2
Kit Preparation	2
Kit Assembly	
– ISO DIN radio provision with pocket.....	3

TOOLS REQUIRED

- Cutting tool • Panel removal tool
- Phillips screwdriver • 9/32 socket removal tool

CAUTION: Metra recommends disconnecting the negative battery terminal before beginning any installation, unless the vehicle manufacturer recommends against so. Please check with your local Dealership for more information. All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before reconnecting the battery or cycling the ignition. Also, do not remove the factory radio with the key in the on position, or the vehicle running. It would be best to remove the key from the ignition and then wait a few seconds before removing the factory radio.

Dash Disassembly

1. Unclip and remove the trim panel surrounding the radio/climate control panel. (Figure A)
2. Remove (4) 9/32" screws securing the radio/climate control panel. (Figure B)
3. Remove (2) 9/32" screws securing the CD player then unplug and remove the player.
4. Unclip and slide out the factory tuner module then unplug and remove it.
5. Unclip and remove the climate controls from the factory trim panel.
6. Unclip and remove the climate control vents from the factory trim panel.

Continue to kit preparation

(Figure A)

(Figure B)

Kit Preparation

1. Cut and remove the specified areas in the sub dash. (Figure A)

Continue to kit assembly

(Figure A)

Kit Assembly

ISO DIN radio provision with pocket

1. Attach the pocket to the radio brackets with (4) of the supplied #8 x 3/8" Phillips screws. (Figure A)
2. Attach the bracket/pocket assembly to the radio trim panel with the remaining (4) #8 x 3/8" Phillips screws. (Figure B)
3. Remove the metal "DIN" sleeve and trim ring from the aftermarket radio.
4. Slide the radio into the bracket trim panel assembly and secure with the screws supplied with the radio. (Figure C)
5. Clip the climate controls into the radio trim panel assembly.
6. Clip the climate control vents into the radio trim panel assembly.
7. Locate the factory wiring harness and antenna plug in the dash. Metra recommends using the proper mating adapters from Metra and/or AXCESS.
8. Reassemble the dash in the reverse order of disassembly.
