axxessinterface.com

is proud to introduce

# ASWC

*The Smartest Steering Wheel Control Interface on the Market Today!*

Below is a comparison of the

## ASWC

to other steering wheel control interfaces out there. We think you'll see the difference is quite clear.

Imagine installing a steering wheel control interface and it would automatically know what vehicle it was in, know what radio it is connected to, and preset the steering wheel controls for you.

**How much time would that save you?**  
**A TON of TIME!**

Now imagine that you only need one interface for all the vehicles out there including Chrysler/Dodge/Jeep vehicles that have the CAN data system, the **ASWC** can decipher the data commands without having to purchase any other interfaces.

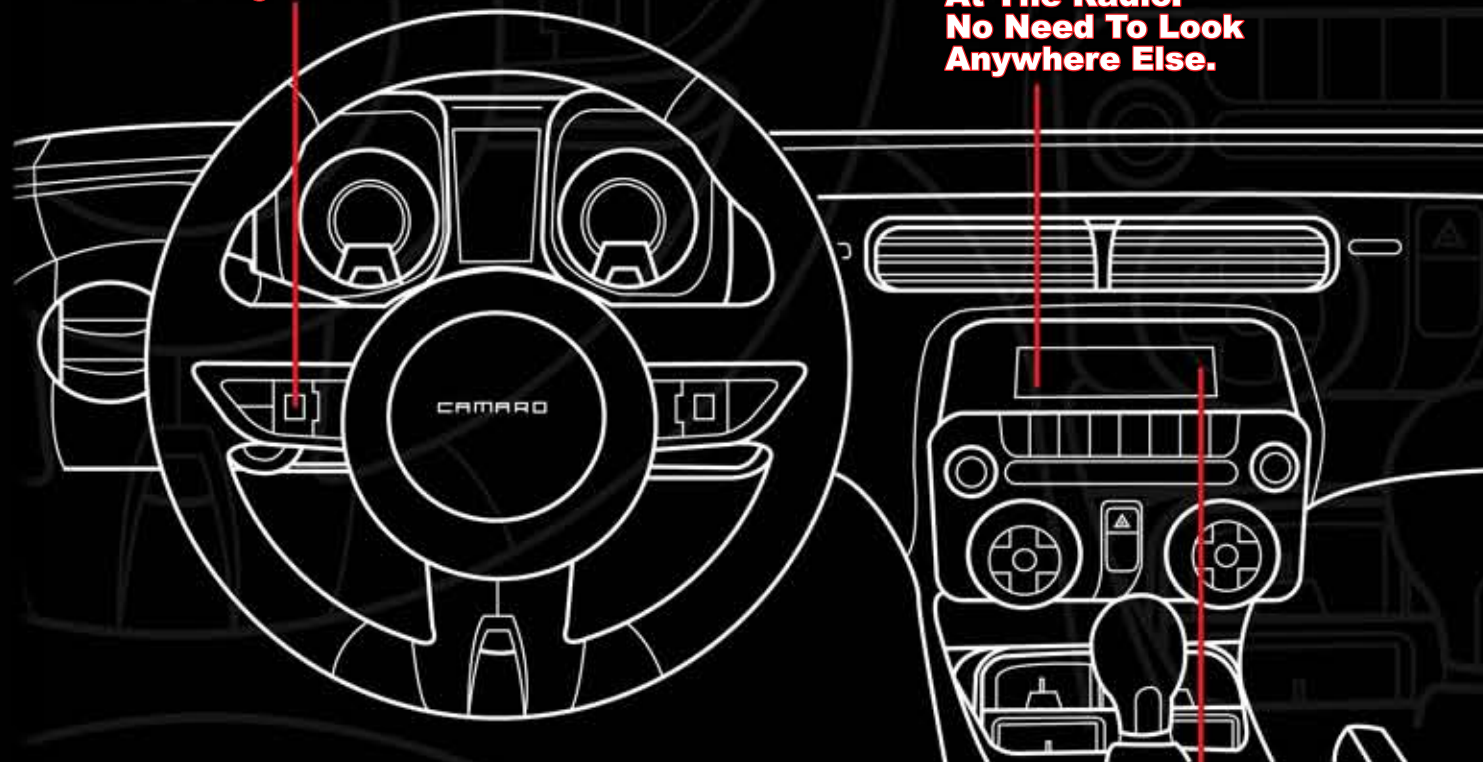

And just think, only one interface is needed to work with the top radio manufacturers in our industry like Pioneer, JVC, Kenwood, Alpine, Eclipse, Sony, and more. The **ASWC** can do it!

### FEATURES INCLUDE:

- **One interface does it all, No additional interfaces needed.**
- **Pioneer, Kenwood, Eclipse, no problem. The ASWC works with them all plus many more radio manufacturers.**
- **Auto detects the majority of vehicles on the market today and presets the steering wheel controls automatically.**
- **Auto detects what radio the ASWC is connected to.**
- **USB updatable to make sure you have the most up to date inventory.**
- **All wires are found behind the radio, No need to look anywhere else!**
- **axcessinterface.com has a dedicated section for vehicle information to aid you in the install.**
- **Non-volatile memory retains the steering wheel control settings even if the battery is disconnected or the ASWC is removed from the vehicle.**
- **The ASWC can be manually programmed to most vehicles on the market**

**Automatically Presets The Steering Wheel Control Buttons During Auto Detect Mode**

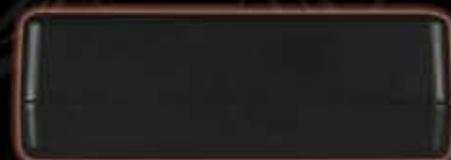

**All Wires Are Found At The Radio. No Need To Look Anywhere Else.**

**ACTUAL SIZE**

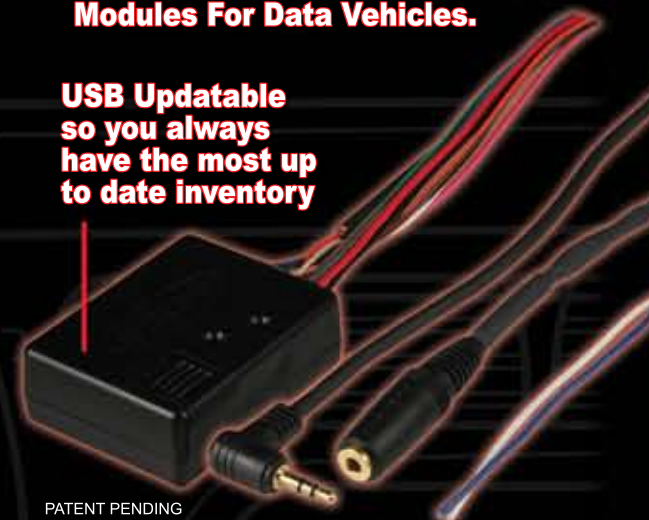

**TOP VIEW**

**SIDE VIEW**

**One Interface Is All That Is Needed. No Need To Purchase Additional Modules For Data Vehicles.**

**USB Updatable so you always have the most up to date inventory**

PATENT PENDING

**Can the interface auto detect what vehicle it is in, what radio is connected, and presets the steering wheel controls automatically, no programming required?**

**AXXESS ASWC: Yes**  
Competition: No

**Is one interface all that is needed when installing a Pioneer, Kenwood, Eclipse, or JVC radio?**

**AXXESS ASWC: Yes**  
Competition: No, specific steering wheel control interfaces are needed depending on which radio is being installed.

**Is one interface all that is needed when installing in a CAN data vehicle like Audi/VW's and Chrysler/Dodge/Jeep's?**

**AXXESS ASWC: Yes**  
Competition: No, you need an additional interface to make the steering wheel control interface work.

**Can you find all the steering wheel control wires needed behind the radio?**

**AXXESS ASWC: Yes**  
Competition: No, on certain vehicles you need to go to the steering column to get the steering wheel control wires.

**Can you update the steering wheel control interface?**

**AXXESS ASWC: Yes, using the USB-CAB update cable and axcessinterfce.com. This way you will never have obsolete inventory.**  
Competition: No, you have to make sure you order the latest version.
