

## TRANSMITTING MUSIC USING BLUETOOTH

### IN ORDER FOR THIS FUNCTION TO WORK A CELLULAR PHONE MUST BE PAIRED AND CONNECTED

When listening to audio from a stereo Bluetooth receiver the audio will be interrupted (not paused) when a phone call comes in.

Controlling your stereo Bluetooth transmitter via AVRCP:  
Play/ Pause – Not functional through the radio control.  
**(Use the controls on your external device).**

**Track Forward** – Press the Seek Forward button.

**Track Back** – Press the Seek Back button.

### USING THE STEERING WHEEL CONTROLS

**USE THE CHART BELOW FOR SW#1 ONLY.** (SEE ILL0 BELOW FOR SW#2)

<b>ANSWER/2ND CALL</b>	PRESS THE CHANNEL BUTTON. (SEE ILL0 BELOW FOR SW#2)
<b>END/IGNORE</b>	PRESS AND HOLD THE CHANNEL BUTTON. (SEE ILL0 BELOW FOR SW#2)
<b>TRACK FORWARD</b>	PRESS THE CHANNEL BUTTON. (SEE ILL0 BELOW FOR SW#2)
<b>TRACK BACK</b>	PRESS AND HOLD THE CHANNEL BUTTON. (SEE ILL0 BELOW FOR SW#2)

**SW#1** (USE CHART ABOVE)

**SW#2** (USE ILL0 BELOW)

The **MODE** button will always route your conversation back to the cellular phone, also known as privacy mode (ex. when exiting the vehicle).

### TROUBLE SHOOTING

<b>NO AVRCP CONTROL</b>	Verify that the paired device supports AVRCP functionality.
<b>RANGE ISSUE</b>	Bluetooth standard range maxing out at 30 feet, may vary due to environment.
<b>DEVICE NOT FOUND</b>	Delete all previous pairing attempts and try again.
<b>BAD CALL QUALITY</b>	Make sure the cellular is within range of the module (30ft.). Make sure the signal reception of the cellular phone is strong.
<b>NO SOUND</b>	Make sure the module is on and paired to transmitting device. Make sure the volume is correct, check both the radio and the transmitting device, and other items within range.
<b>AUDIO DROP OUTS</b>	Make sure the transmitting device is at a good battery state. If the item in on low battery, please recharge.

**NOTE:** Due to every phone having different software and functionality features, many phones may work different with the Bluetooth module of the BFHA. We recommend contacting the Scosche Technical Support at 1-800-621-3695 Ex.3 with any common or reoccurring issues.

### LIMITED WARRANTY

Scosche Industries Inc. warrants this product to be free from defects in material and workmanship for a period of 90 days from purchase. This Scosche product is sold with the understanding that the purchaser has independently determined the suitability of this product. This warranty is offered to the original purchaser of the product only. This warranty does not cover the product if physically damaged, subject to negligence or misuse, abuse, alteration, accident, or an act of GOD. This warranty does not apply to product which has water or physically damaged by accident or which has been misused, disassembled or altered.

The original dated sales slip or proof of purchase will establish warranty eligibility. If the product should prove defective within the warranty period, return the product with proof of purchase to Scosche Industries Inc. Scosche, at its option, will replace or repair the product free of charge and return the product postage paid. In no event shall Scosche Industries, Inc. be responsible for claims beyond the replacement value of the defective product, or in any way be liable or responsible for consequential or incidental damages. No express warranties and no implied warranties, whether for fitness or any particular use or otherwise, except as set forth above (which is made expressly in lieu of all other warranties) shall apply to products sold by Scosche. Scosche Industries cannot be held responsible for discrepancies/inconsistencies that may occur due to automotive manufacturing changes or option.

2006-09 PILOT  
2006-09 RIDGELINE  
2006-09 S2000

# QUICK START

## STEP 1 INSTALL

Using the BFHAHB harness, install the BFHA interface into your vehicle. Contact Scosche Tech Support for your specific vehicle disassembly.

## STEP 2 POWER THE MODULE

With the unit installed, turn the ignition key to the on position to place the Bluefusion module into pairing mode. Press your radios designated XM button to enter the XM (Bluefusion) source. From the XM source press the preset number 6 button, the screen displays "Bluefusion" when ready.

## STEP 3 PAIR YOUR CELLULAR PHONE

Set your cellular phone into pairing mode and search for a new Bluetooth device (See your phone's owners manual for instructions). Once your cellular phone has searched for a new device, select "BLUEFUSION" from the list of devices found. If prompted for a pass code enter "0000".

## STEP 4 NAVIGATE AND ENJOY

Once the two devices have connected and paired, you will be able to scroll through the menu functions of the BFHA. (See page 2-4 for Bluefusion operation).

**IMPORTANT!**  
**DO NOT RETURN PRODUCT TO THE RETAILER**  
IF YOU NEED ASSISTANCE OR REPLACEMENT PARTS  
CALL US TOLL FREE: 1-800-621-3695 X3  
HOURS MON-FRI 8AM-5:30PM (PST) SATURDAY 8AM-2PM (PST)

## INSTALLATION OVERVIEW

## PAIRING YOUR MOBILE PHONE

1. Turn the key to the on position (II) to place Bluefusion into pairing mode.
2. Press the appropriate button to get to your XM source, then press and hold the preset number 6 to enter Bluefusion, screen displays "BLUEFUSION".
3. On your cellular phone, enter your Bluetooth menu and make your cellular phone search for a new bluetooth device. The device name will be "BLUEFUSION" and if you are prompted for a pass code enter "0000".
4. When the two devices are paired to each other, be sure to set the Bluefusion as a trusted device on your cellular phone.

**NOTE:** When the ignition is turned off the call will automatically transfer to the headset.

**NOTE:** When a phone call is active and you are re-entering the vehicle, the call will not automatically transfer to Bluefusion. Active calls will remain on the cell phone until the next active phone call.

*These notes are assuming the cellular phone's bluetooth feature is set to "ON".*

## SWITCHING RADIO SOURCES

While using other sources other than XM (Bluefusion) the interface will automatically switch to the XM source when you have an incoming phone call. The radio switches through the sources to find the XM source on the radio, some audio may bleed through while switching sources.

When a phone call is ended your radio will not automatically switch back to the original source you were previously on, this feature only works when previously on XM source. At this time we recommend switching back to the original source you were previously on.

## RADIO OPERATION

# RADIO CONTROLS MAY VARY.

There are different buttons used for each of the individual radios. Please read and understand this entire manual before operating the interface.

**THIS CHART IS TO BE USED FOR ALL RADIO STYLES BELOW.**

**PRESET NUMBERS FUNCTION THE SAME FOR RADIOS LISTED BELOW.**

P = PRESET NUMBER

P	FUNCTION
1	SELECT/ ANSWER
2	ACTIVATE VOICE DIAL
