FAQ

My radio does not show Caller ID	Text is not supported by the BT35-HON
The voice prompt does not work	Make sure you are in Bluetooth mode and push the SCAN button.
I can not change my songs with the SEEK Button	Make sure your Bluetooth device supports AVRCP or restart your phone.
Music does not play on my radio when I select it on my device	Make sure your Bluetooth device supports A2DP or restart your phone.
After my phone calls, the BT35 does not switch back to original source	The BT35 will not switch back to the original source. Unless you are in Bluetooth mode, you must manually select the original source after a call.
My device does not connect when I turn on my car	Check that the Bluetooth on your device is turned on. If Bluetooth is on and the device does not connect, manually reconnect your Bluetooth device.
My music stopped playing	Music will stop playing once you have reached the last song on your current playlist, artist, album, etc. Select next playlist to resume play.
There is a distortion while playing music or during phone calls	Lower the volume with your Bluetooth device. Some stereos do not support high volumes from your device.

TROUBLESHOOTING

Many problems can be solved by taking any of the following steps:

- Restart your vehicle to resent the BT35
- Unpair and pair your device with the BT35
- Turn your phone off and on or remove/reinstall your phone/device's battery
- If you have access to the BT35, unplug and reconnect the BT35
- Make sure all connections are secure and tight

For help with any additional issues, please call Technical Support at (626) 336-3836 or email us at techsupport@usaspec.com

Music Selection from your Radio

- Change songs with SEEK^ (forward) button and SEEK∨ (back) button on your radio or steering wheel controls.
- Shuffle, repeat playlist, and repeat song commands are controlled directly on your Bluetooth device. Obey all traffic safety laws while using your device.

*****Bluetooth device must support AVRCP. Please refer to your device’s owner’s manual for more information.*****

Hands-Free Phone Calls

Incoming and Outgoing Calls

When receiving or making a phone call the BT35 will mute your music and allow the phone call audio to come through your speakers; for incoming calls you will hear both your phone ring and hear a default ringtone through your speakers.

Radio Behavior During Phone Calls

Current Radio Source	AM/FM/SAT CD CHANGER	Bluetooth Mode	Radio Off
Radio Reaction to Phone Calls	Mutes music from radio source to allow phone call audio to come through the speakers. After call, user must manually change to original source.	Pauses current music. Resumes play after call.	Turns on radio in Bluetooth mode. Radio will remain on after call.

Caller ID Voice Announcement

The BT35 can announce the phone number of the incoming caller. While in Bluetooth mode, toggle the SCAN button to turn the voice announcement on/off.

*Only the phone number will be announced.

*If the caller has a private number, no announcement will be made.

Call Control

Answering Calls SEEK ^	To answer an incoming call simply push the SEEK(forward) button on your radio or steering wheel.
Ending/Rejecting Calls SEEK ∨	To end or reject an incoming call push the SEEK (back) button on your radio or steering wheel. If you reject a call, there will be a voice prompt “ <i>Rejected</i> ”. You will get a similar prompt if you end a call, “ <i>Call ended</i> ”
Outgoing Calls	To make an outgoing call, dial the number using your phone. After the call is dialed, you can use your radio/steering wheel controls to control the call. Please obey all traffic safety laws while using your device.

Thank you for purchasing USA SPEC's Bluetooth integration kit. This manual describes the functions and operations of the BT35 Bluetooth interface for Toyota and Lexus vehicles.

CAUTION!!!

Please read this manual before using the BT35 interface. Failure to follow instructions may result in malfunction of the unit or injury.

- Do not open, disassemble, or alter the BT35 in any way.
- Do not expose the BT35 to extreme temperatures, humidity, or shock.
- Do not install the BT35 in locations that may hinder vehicle operation or that may harm others.
- Do not expose the BT35 to fluids.
- Do not operate your Bluetooth device while driving. Always give full attention to the road when driving.
- Keep away from children. The BT35 contains small items that may be a choking hazard.
- It is highly recommended that the BT35 be installed by a professional.

BT35 Package Contents

- 1 BT35 Interface Adaptor
- 1 Owner’s Manual
- 1 CAS-H35 Cable
- 1 MIC35 Microphone

Application Chart

HONDA	Accord	03-12	Insight	10-12
	Civic	06-12	Odyssey	05-10
	CRV	05-11	Pilot	06-11
	CRZ	10-12	Ridgeline	06-12
	Element	03-11*	S2000	04-07
	Fit	07-12		

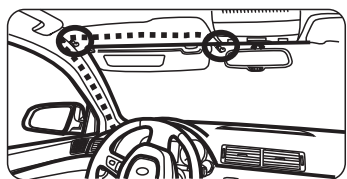

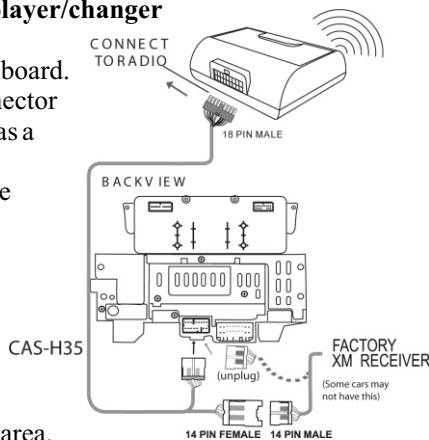

*Note: For double-din radio only. The BT35-HON is not compatible with vehicles equipped with OEM Bluetooth.

Installation

It is recommended that the BT35 be installed by qualified professionals. When installing the BT35, beware of sharp edges and exercise caution when removing panels and trim as they may break. Please review the manual while installing and pairing the BT35 to ensure that it functions properly.

Cable Connection

1. Make sure DIP switches are still in their default settings: all OFF.
2. **Remove all CDs from the in-dash CD player/changer before disconnecting the radio.**
3. Carefully remove the radio from the dashboard.
4. Connect the CAS-H35 to the 14-pin connector in the back of your radio. (If your radio has a factory XM receiver already connected, disconnect the receiver and plug it into the CAS-H35.)
5. Connect the CAS-H35 cable to the BT35 in the box labeled "RADIO".
6. Connect MIC35 to the BT35.
7. Turn on the radio and test to see if your Bluetooth device works with the radio. (Refer to the Pairing Section on Page 4)
8. Install the BT35 into an easily accessible area.
9. Install the microphone in an area that will not obscure the voice projection.
10. Reinstall the radio into the dashboard.

Recommended Microphone Placement

MINI-USB is for factory use only.
Please do not attempt to connect any devices to the mini-USB port.

DIP Switch Setting

The DIP switches on the BT35-HON should all remain on the factory default settings: all switches on the OFF position.

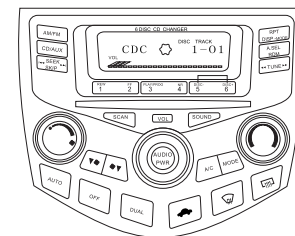

Device Compatibility

Most Bluetooth devices (such as iPhone3G/3Gs/4/4Gs, iPod Touch 3rd/4th generations and Android phones) are compatible with the BT35; however, USA SPEC does not guarantee that all Bluetooth devices are compatible. For a current list of the compatible devices, please refer to our website www.usaspec.com.

Pairing the Bluetooth Device

Steps to Pair Your Bluetooth Device

- Step 1: After your BT35 has been installed, turn on the ignition and the radio.
- Step 2: Select the CDC (CD Changer) source on your radio by pushing the CD, XM, or AUX button. This will put the radio in Bluetooth mode and you should see something similar to the example pictured. (The button you push to get to the CDC source may differ in each vehicle. You may have to push this button more than once. Refer to your vehicle's owner's manual for instructions on accessing the CDC source.)
- Step 3: Make sure your device's Bluetooth setting is turned "on" and select "search for new devices". (Refer to your device's owner's manual). BT35 should show as one of the options.
- Step 4: Select the BT35 to pair it with your device. If prompted to enter a code (some devices may not require you to do so), enter "0000". Pairing may take up to 20 sec. When you are connected, you will hear the voice prompt "Connected".

Once paired, the BT35 will automatically recognize and connect your Bluetooth device whenever you turn on your ignition. Please allow up to 20 seconds for the connection to occur.

Additional Pairing Information

- Some devices may require additional steps while pairing. Refer to your device's owner's manual.
- The BT35 can be paired with up to 8 devices, but will only connect to 1 device at a time.
- For some vehicles, the BT35 will automatically turn on your radio when you start the ignition in order to connect with your device.

Streaming Audio

Music and More: Playing Audio through Your Car Speakers

Select the *CD, XM, or AUX button and it will switch to Bluetooth mode for audio streaming. It can play music/audio from many applications on your device such as Pandora, SiriusXM Radio, YouTube, Netflix, and many more!

*The button you push will depend on your vehicle. See Pairing Step 2 above for more information.

*****Bluetooth device must support A2DP. Please refer to your device's owner's manual for more information.*****

LIMITED WARRANTY

Thank you for choosing a USA SPEC product. LTI Enterprises Inc., is committed to providing high quality defect-free products. All USA SPEC products are tested before leaving the factory and warranted against defects in materials and workmanship for a period of one year to the original owner. The one-year warranty period begins at the date of purchase from an authorized dealer. Please see installation registration below.

PRODUCTS COVERED:

Products and related accessories supplied by LTI Enterprises Inc. with the brand name of USA SPEC are covered by this warranty. Only products purchased in the USA are covered.

WARRANTY DOES NOT COVER:

1. Damage due to improper installation or operation, negligence, abuse, or not following instructions, warnings or acceptable industry procedures.
2. Damage caused during the shipment or transportation of the product. All claims of this nature must be presented to the carrier.
3. Damage caused by acts of God, war, or civil disturbance, including without limitation, flood, fire, storms, earthquake or other acts of nature.
4. Any expenses or cost to remove or reinstall products.
5. Any product without the original serial number and factory seal, or has been serviced or modified without the authorization of LTI Enterprises Inc.
6. Any product not distributed by an authorized LTI Enterprises Inc. Dealer.

TO OBTAIN WARRANTY SERVICE:

Contact the Customer Service center for assistance at (626) 336 - 3836. A detailed description of the problem(s) is required for service. Proof of purchase is also required when sending a product for warranty service. If the problem cannot be resolved and the product must be returned for service, you will receive an authorization form from the service center. The product must be delivered pre-paid to the service center. LTI Enterprises Inc., will, at our option, repair the product or replace it with a new or reconditioned product, and if it was shipped to the service center, the return shipping will be pre-paid free of charge provided the repairs are covered by the warranty. The product must be packed securely for shipment to the service center in order to preserve the warranty and prevent damage.

NO IMPLIED WARRANTY, INCLUDING MERCHANTABILITY AND FITNESS FOR USE APPLIES TO THIS PRODUCT AFTER THE ONE YEAR PERIOD AS DEFINED ABOVE, AND NO OTHER EXPRESSED WARRANTY OR GUARANTEE, EXCEPT AS MENTIONED ABOVE, GIVEN BY ANY PERSON, FIRM, OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BIND THE WARRANTOR. NEITHER THE WARRANTOR NOR ANY OTHER PERSON, FIRM, OR CORPORATION IS RESPONSIBLE FOR LOSSES OR INCONVENIENCES, OR FOR ANY CONSEQUENTIAL DAMAGES CAUSED BY THE PRODUCT. SOME STATES/PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, AND SOME DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This warranty gives you specific legal rights, and you may also have other rights, which vary, from state to state, and province to province. Some of the limitations or exclusions may not apply to you.
