

DIAMOND ANTENNA

K400CNMO Antenna Mount

General Specifications

- Deluxe Heavy Duty Trunk/Hatchback Mount.
- NMO Mounting Base.
- Black Finish.
- Power Rating: 350 Watts.
- Coaxial Cable: 6.5' RG316 Teflon cable with mini UHF connector and PL-259 adapter. For trunk mount style radios.

NOTE: Use Diamond Model C110, 10' Extension Cable Assembly when mounting radio at front of vehicle.

Installation Instructions

- 1) Choose desired mounting location on vehicle to ensure maximum strength of mount and best performance of antenna.
- 2) When best location is determined, fasten mount to vehicle by tightening allen set screws. Some antennas require vehicle ground; therefore, fasten set screws through paint to ensure contact to metal.
- 3) Route coaxial cable from antenna mount to radio. Cable assembly supplied with mount is designed for trunk mounted radios. If radio is mounted in front of vehicle; use Diamond C110, 10' extension cable assembly which mates to K400CNMO.
- 4) Assemble PL-259 Adapter to mini UHF connector, connect cable to radio.
- 5) K400M instructions have been included for reference only.
