

We recommend reading this installation guide first before starting any work. Following these instructions from “Start” to “Finish” will ensure a smooth and hassle free installation. We offer telephone support M-F 9:00 AM – 5:00PM PDT at 1 (855) 822-1348. We are here to help.

- (1) Interface Module
- (1) TOY/LEXUS Harness
- (1) Instruction Sheet

- Remove the negative side of the battery to avoid any short circuits during the installation.
- Do not install the interface near any major components or near the HVAC system. This may cause damage or overheating to the vehicle.

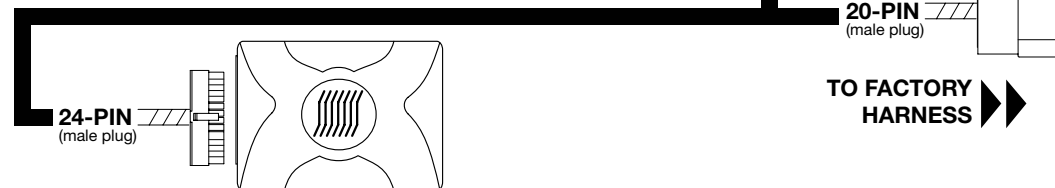

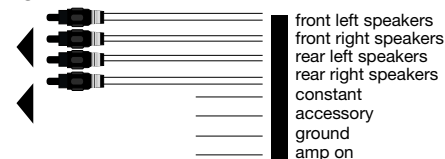

Please read the entire manual before installing this interface.
This unit provides the following:

- 12V Acc Output

Before installing this interface please review the options before removing the factory radio. Some options may need to be adjusted prior to removing the factory radio. **Options include:**

- Premium Sound, JBL System.

MATCH LOOSE WIRES TO AFTERMARKET RADIO

Black	= Ground
Red	= Accessory
Yellow	= Constant
Blue/White	= Amplifier Turn-On
White RCA	= Left Front
Gray RCA	= Right Front
Green RCA	= Left Rear
Purple RCA	= Right Rear

The color code section above is using the industry standard E.I.A. color codes.

1. Make sure the vehicle recognizes the interface, turn the key to the "RUN" position for 2 seconds, then turn the key to the "OFF" position. Then repeat. We recommend doing this twice to confirm.
2. Make sure you have the correct amount of RCA inputs on your new aftermarket radio prior to installation. If not enough RCA inputs, we recommend purchasing a "Y" splitter. See your local car audio specialist.
3. Before removing the factory radio, make sure to set the balance and fader to zero (center) and set the volume level between levels 10 and 20.
